NEWS RELEASE

PORTAGE ANNOUNCES LISTING ON CANADIAN NATIONAL STOCK EXCHANGE

Toronto, Ontario, October 25, 2013 – Portage Biotech Inc. (“the Company”) (OTCBB: PTGEF (“Portage”) is pleased to announce that effective October 28, 2013, the common shares of Portage will be listed for trading on the Canadian National Stock Exchange (the “CNSX”, www.cnsx.ca), in US currency, under the symbol “PTB.U”. Portage shares will also continue to be quoted and traded on the Over the Counter Bulletin Board of NASDAQ under the trading symbol “PTGEF”.

Mr. Kam Shah, CFO commented, “Portage is looking forward to this listing on the CNSX. Listing on this recognized stock exchange will provide additional liquidity to our shareholders, access to larger capital markets, make our shares eligible for tax free savings and RRSP accounts for our Canadian investors and increase our visibility and creditability as a Canadian listed public company.”

About the CNSX:

Formerly known as the Canadian Trading and Quotation System Inc. (CNQ), the exchange re-launched as the CNSX in November 2008 to reflect its status as a full service, national stock exchange. CNSX's unique model matches enhanced disclosure and streamlined issuer regulation with leading edge technology to meet the needs and characteristics of emerging companies, their investors and investment dealers. CNSX is fully recognized by the Ontario Securities Exchange Commission (OSC) as a stock exchange and is subject to OSC regulatory requirements.

For more information on the CNSX, please visit their website: www.cnsx.ca.

About Portage:

Portage, a British Virgin Islands company, is engaged in researching and developing pharmaceutical and biotech products through to clinical “proof of concept” with an initial focus on unmet clinical needs and orphan drugs. Following proof of concept, Portage will look to sell or license the products to large pharmaceutical companies for further development and commercialization.

Portage through its subsidiary, Portage Pharmaceuticals Ltd., holds an exclusive worldwide licence in non-oncology fields and the know-how relating to the Antennapedia protein transduction technology developed by Trojantec. Antennapedia (“Antp”) is an unusual protein that allows for the delivery of drugs into a cell and even into the nucleus which is often the desired site of action. This protein coupled with a drug may even cross the blood brain barrier. Portage is developing a research pipeline of Antp-based drug candidates and evaluating their function and potential as new therapeutic agents for a variety of non-oncology indications.

Portage management is looking to in license additional products to add to its portfolio.
